Confirmation Bias

Create a presentation explaining Confirmation Bias as a social phenomenon. Note that “presentation” is used loosely here - it could be a traditional stand-and-talk presentation, a cool poster to hang in the classroom, a diorama, a video, etc. Use your imagination, but above all make it awesome. You may choose to look at how Confirmation Bias drives financial markets, home prices, political views, sports, or any other topic. Your presentation needs to be explanatory so that it helps your classmates gain a deeper understanding of Confirmation Bias and how pervasive it is.
