Teacher/Hour _____

ROGUE SIDE QUEST Edible Motherboard

You and your guild can complete the Rogue Side Quest by helping to create a big model computer next class period. Each guild builds its own model computer. The “motherboard” will be provided by your instructor.

Each component **must** include an index card that has the following:

- The name of the person who made it
- The name of the component
- A picture of the actual component
- Some interesting facts about that component
- The ingredient list of the edible model you brought

Your guild will also get a five-token bonus if the computer is "assembled" properly on the table, complete with connections. Your guild's pride is at stake, so don't forget to be awesome!
